## Contract Details:

Project Name	QatarWorldcupCoin
Contract Address	0x88eCCA9b063fC8272bF2EEde2039c1F31E20c292
Contract Name	QatarWorldcupCoin
Compiler Version	v0.8.14+commit.80d49f37

## Audit Report:

▪ Function Default Visibility	Passed	▪ Code With No Effects	Passed
▪ Integer Overflow and Underflow	Passed	▪ Missing Protection against Signature Replay Attacks	Passed
▪ Outdated Compiler Version	Passed	▪ Lack of Proper Signature Verification	Passed
▪ Unchecked Call Return Value	Not Checked	▪ Requirement Violation	Not Checked
▪ Unprotected Ether Withdrawal	Not Checked	▪ Write to Arbitrary Storage Location	Not Checked
▪ Unprotected SELFDESTRUCT Instruction	Not Checked	▪ Incorrect Inheritance Order	Not Checked
▪ Unencrypted Private Data On-Chain	Not Checked	▪ Insufficient Gas Griefing	Not Checked
▪ Reentrancy	Not Checked	▪ Arbitrary Jump with Function Not Checked Type Variable	Not Checked
▪ Uninitialized Storage Pointer	Not Checked	▪ Safe Zeppelin module	Not Checked
▪ Assert Violation	Not Checked	▪ Fallback function security	Not Checked
▪ Use of Deprecated Solidity Functions	Not Checked	▪ DoS With Block Gas Limit	Not Checked
▪ Delegate call to Untrusted Callee	Not Checked	▪ Typographical Error	Not Checked
▪ DoS with Failed Call	Not Checked		

This report is a preliminary audit report which is not designed to replace a full audit through Audits Finance. Audits that pass the preliminary report are not free of all issues, vulnerabilities, or economic exploits and we suggest upgrading to the full audit report for manual review. None of the information on this report should constitute investment advice.
